

A measured step forward™

March 2006

Dear Friends,

Lutz-JESCO America Corp., your source for Total Fluid Management™, is proud to announce a new product to complement our wide range of fluid management products.

Air Operated Diaphragm Pumps Now Available!

Need an Air Operated Diaphragm (AOD) Pump? Now you can turn to Lutz-JESCO America. We have a full line of oil-free, air-operated double diaphragm pumps for your chemical transfer needs.

Why Choose an AOD Pump from Lutz-JESCO?

- Corrosion free materials of construction
- Can safely run dry
- Gentle transfer of liquids and pastes
- No leakage and contamination in the compressed air system due to a novel valve technique
- Patented lube-free, non-stall, non-freeze air systems
- All plastic air systems
- Air efficient
- Modular design
- Reliable and easy to maintain
- Service-friendly construction
- BSP threads option
- ATEX certified
- 100% testing prior to shipment
- Conductive plastic pumps available
- PTFE coated fasteners optional
- Reduced operating costs

AOD Pumps are ideal for a variety of industries, including:

- Glass and Fiberglass
- Marine/Shipbuilding Industry
- Metal and Steel
- Mine and construction dewatering
- Paint
- Wood Industry
- Aircraft Industry
- Electroplating/Surface treatment
- Food and Beverage Industry
- Automotive
- Chemical and Petroleum
